Contents

1	Introduction	1
A.	Definition of a Plasma: The Scope of Modern Plasma Physics	1
B.	The Debye Length	3
C.	Plasma Oscillations	4
D.	The Saha Equation	5
E.	Plasma Beta	7
2	Fundamental Theoretical Formulation:	
	The Microscopic Kinetic Equation	9
A.	Maxwell's and Newton's Equations	9
B.	The Microscopic Distribution Function and Kinetic Equation	10
C.	Ensemble Averages and Fluctuations	11
D.	The Expansion in Fluctuations	13
E.	An Overview	15
